ABOUT THE COLLEGE

In the year 1947, the Govt. of Odisha, decided to start a college at Jeypore in response to high demands of the public for higher education in this backward tribal area. Under the rule of King Rajashri Vikram Dev Varma, the college began its journey. The King Vikram Dev Varma contributed for this noble cause by donating land and buildings for the college. As a tribute towards the contributions made by Raja Vikram Dev Varma, the Govt. of Odisha renamed "Jeypore College" to "Vikram Dev College" in 1951, with a statue of the King that holds the central place of the main building of the college. The college is one of the premier colleges in the southern part of the state of Odisha (India) distinguished for its quality of teaching and administration. The programmes offered in the department facilitate holistic education, employability, entrepreneurial spirit and scientific temper to the most important stakeholders i.e. students, empowering them to become responsible and environmentally conscious citizens. The college has always believed that the development of an institute rests on the overall performance of the students in academics, sports and cultural activities along with high values and ethics. The college is sincerely trying to upgrade its standards with the help of well qualified and devoted staff members.

CELEBRATING 75 YEARS OF VIKRAM DEB (AUTONOMOUS) COLLEGE, JEYPORE

Vikram Deb (Autonomous) College, one of the oldest institute of Odisha, India is now celebrating 75 years (1947-2022) / Platinum Jubilee of its educational heritage.

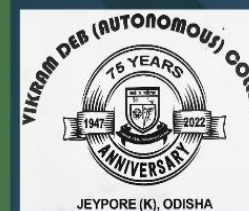

ABOUT THE CONFERENCE

The International conference on "Recent Advances in Biological Sciences" 2022 (RABS-2022) will be carried out in blended/hybrid modes i.e. few deliberations will be conducted in online mode. The aim of this conference is to bring together eminent academicians, researchers, scientists and students to engage in critical issues and challenges with latest developments on cutting-edge research and technology in the area of Biological Sciences and its applied field. It will provide an excellent international forum for sharing experience and outcomes in the futuristic research and innovations. The conference has been designed to cover a wide range of issues through keynote and plenary lectures, invited talks and interdisciplinary discussions.
